# Delivering Your Unique Birth Experience

At Florida Hospital for Women, we proudly provide expectant parents with a wide range of maternity and fetal-care programs for you and your family. Each of our Baby Place locations — Altamonte, Celebration, Orlando, Winter Park, and Waterman — offers a unique and tailored approach. From natural-delivery options to beautiful, boutique-like settings, moms can create the birth experience of their dreams.

## Experienced Physicians, Nurses, Midwives and Pediatricians

Our obstetricians, maternal fetal medicine physicians and pediatricians offer unparalleled expertise and experience to our new moms, providing compassionate care every step of the way. We specialize in obstetric care for both routine and high-risk pregnancies. Our physicians are supported by world-class nurses and clinical staff so you can be confident you will have the very best care possible.

## Comprehensive Fetal Medicine

Florida Hospital's comprehensive fetal medicine program provides advanced care for women experiencing high-risk pregnancies or fetal complications. It also encompasses the highest-level neonatal intensive care unit (NICU) along with some of the best neonatal specialists in the nation. Services include:

- Diagnosis and monitoring of pregnancy complications
- Coordination with obstetrician offices and pediatric specialists at Florida Hospital for Children
- Individualized birthing and delivery plans
- Advanced care for premature infants, multiple-birth pregnancies and babies born with health challenges.

## Birth Experience Design Team

As registered nurses and certified childbirth educators, our Birth Experience Coordinators deliver a customized birthing experience for every family. From amenity choices such as your preferred food and music, to options for pain relief and monitoring during delivery, our team matches every detail of your child's birth to your personal preferences.

Our coordinators serve as personal liaisons between each mother's obstetrician's office and The Baby Place. They can provide individual support and education, arrange facility tours and answer any questions you have leading up to your big day.

## Personalized Amenities

We offer the comforts of home, combined with complimentary services and a wide variety of personalized amenities. From valet parking upon your arrival to room service, you'll find your experience at The Baby Place to be tranquil and memorable. Our all-private rooms, combined with superior service, help create a special experience to welcome your new arrival.

## The Baby Place Academy

The Baby Place Academy is our parent education program that offers a variety of classes and services to meet your specific needs. Our goal is to provide expectant parents with the skills and knowledge necessary to embark on this new phase of life with confidence and excitement. We offer a variety of classes at each of our five locations that cover topics including baby care basics, comfort measures for labor and birth, infant and child CPR and breastfeeding. For a full list of class offerings and to register, please visit [FHParentEducation.com](http://FHParentEducation.com).
